

ON DASHER

Sweetwater

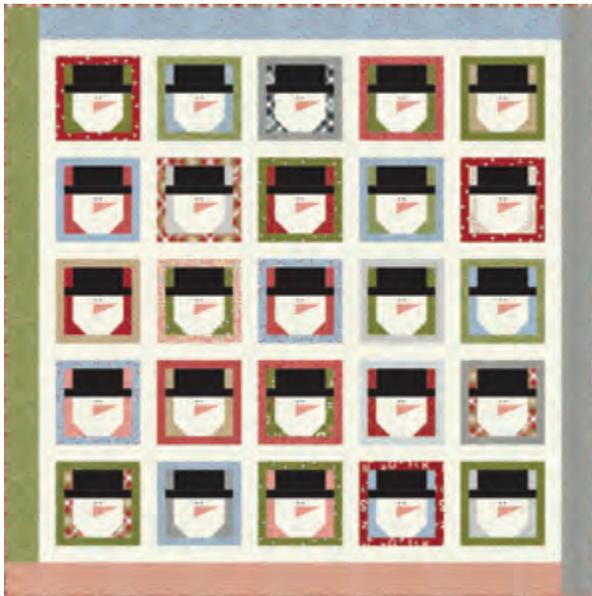

Our main goal while designing On Dasher was to create a Christmas collection that was lighthearted and fun. What's more fun than a reindeer? While we could have named the collection after another more famous reindeer, we thought we would put the spotlight on the first name that Santa calls on Christmas Eve. On Dasher is created with the traditional colors of red and green, with just a touch of icy blue. There are a few Christmas-themed prints in the line that are coupled with several blenders that can be used with any project. We hope you have as much fun creating with On Dasher as we did designing the collection.
